

MacuPrime®

KNOW THE SCIENCE

1

You need all three carotenoids to rebuild macular pigment & protect against AMD

Central Dip Study 2012

Formulations without Meso-Zeaxanthin were not as effective as MacuPrime in rebuilding macular pigment. 100% success after 8 weeks with MacuPrime triple carotenoid formula.

2

Supplementation can help people at high-risk of AMD & those diagnosed with early AMD

MOST Study 2012

3-year study proved that early AMD patients will benefit with increased macular pigment, improved vision and no progression of disease.

CREST AMD 2017

After 24 months Macuprime PLUS was proven to help improve visual performance in early stage AMD patients.

3

Supplementation can help improve night-time driving & issues with glare

CREST Healthy Eyes 2016

After 1 year, people with healthy eyes & no AMD had significant improvements in contrast sensitivity, glare disability and photo-stress recovery.

4

Supplementation can help improve cognition

CREST Cognition 2018

Carotenoids enhance memory in healthy individuals with low levels of macular pigment.
