MacuPrime PLUS+® Eye Health Supplements - 30 Day Pack	£30	30-Days	4 capsules per day

What are the MacuPrime PLUS+® Eye Health Supplements?

An AREDS2 based supplement to help maintain normal vision. Taken once a day, MacuPrime PLUS+® delivers nutrients to the protective macula pigment. The macular pigment is made up of 3 carotenoids called Lutein, Meso-Zeaxanthin and Zeaxanthin, which gather at the macula to provide natural protection to light-sensitive cells at the back of the eye.

The Macula is a small, light-sensitive spot in the centre of the retina. It is responsible for almost 90% of our vision. The macula gives us all of our sharp detailed and coloured central vision that we rely on for activities such as driving, reading, writing and recognising faces.

As we get older the macular pigment can also wear down and become thinner. This reduced the protection our macula and retina have from oxidative stress and can lead to a condition known as Age-related Macular Degeneration (AMD).

Suitable for?

MacuPrime PLUS+® Eye Health Supplements is suitable for patients seeking a premium, high-strength, natural supplement to support their Dry Eye symptoms, Macular Degeneration and help maintain normal vision.

Ingredients

Carotenoids

Lutein, Zeaxanthin and Meso-Zeaxanthin are powerful plant based nutrients called carotenoids. Carotenoids can be found in leafy greens like spinach, kale and broccoli. Research has shown that the carotenoids present in MacuPrime (Lutein, Meso-Zeaxanthin and Zeaxanthin) naturally gather at the back of the eye to form the protective macular pigment at the macula. Our bodies cannot produce carotenoids meaning we can only get them from the foods we eat.

The superior quality NutriMz® carotenoid ingredients used in MacuPrime are extracted from the marigold flower (Tagetes Erecta) using a unique and patented process.

Zinc

Zinc has been proven to support the maintenance of normal vision.

Vitamin C, Vitamin E, Zinc and Copper

These ingredients each contribute to the protection of cells from oxidative stress.

Product Benefits

- **Enhanced Macular Pigment:** MacuPrime PLUS+® delivers a powerful blend of Lutein, Meso-Zeaxanthin, and Zeaxanthin directly to the macula, fortifying the macular pigment. This strengthened pigment provides natural protection to the light-sensitive cells in the retina, helping to maintain optimal eye health.
- **Reduced Risk of AMD:** By combating oxidative stress, MacuPrime PLUS+® helps reduce the risk of Age-related Macular Degeneration (AMD), a leading cause of vision loss in older adults. Regular supplementation with MacuPrime PLUS+® can contribute to preserving central vision and visual acuity.

Product Benefits

- **Scientifically Proven Ingredients:** Formulated based on the AREDS2 study and backed by scientific research, MacuPrime PLUS+® contains clinically proven carotenoids known to support macular health. This evidence-based approach ensures that you're receiving effective and reliable support for your vision.
- **Long-Term Vision Protection:** Investing in MacuPrime PLUS+® is an investment in your long-term vision health. By safeguarding the macula and retina from oxidative stress, this supplement helps preserve your vision, allowing you to enjoy a lifetime of clear and vibrant sight.

FAQ's

What is the macular pigment, and why is it important?

The macular pigment is a protective layer of pigments located in the macula, which is responsible for central vision. It acts as a natural filter, shielding the retina from harmful blue light and oxidative stress. Maintaining a healthy macular pigment is crucial for preserving clear and detailed vision.

What are carotenoids?

Carotenoids are naturally occurring pigments abundant in fruits, vegetables, and plants, lending vibrant hues of red, orange, and yellow. Beyond their botanical roles, carotenoids serve as antioxidants in the human body, counteracting free radicals and mitigating oxidative stress. Some carotenoids, like beta-carotene, possess provitamin A activity, converting into essential vitamin A. Particularly notable in eye health are carotenoids like lutein, meso-zeaxanthin, and zeaxanthin, found in supplements such as MacuPrime PLUS+®, where they bolster the macular pigment, shielding against age-related macular degeneration (AMD) and supporting long-term vision wellness.

What is the difference between MacuPrime® and MacuPrime PLUS+®?

The only difference is that MacuPrime PLUS+® is an AREDS2 based formula giving you additional Vitamin C, Vitamin E and Copper on top of the Lutein (10mg) Meso-Zeaxanthin (10mg) and Zeaxanthin (2mg) available in MacuPrime®. MacuPrime PLUS+® also contains Zinc which helps to maintain normal vision.

How long does it take to see results with MacuPrime PLUS+®?

Results may vary from person to person, but consistent use of MacuPrime PLUS+® over time can help support and maintain normal vision. It's important to continue taking the supplement as directed for optimal benefits.

Is MacuPrime PLUS+® suitable for pregnant or nursing individuals?

If you are pregnant, nursing, or planning to become pregnant, it's essential to consult with your healthcare professional before starting any new supplements, including MacuPrime PLUS+®. They can provide personalised recommendations based on your individual health needs and stage of pregnancy or lactation.

Reminders & Precautions

- **Consult with Healthcare Professional:** Before starting any new supplement regimen, especially if you have underlying health conditions or are taking medications, it's essential to consult with your healthcare professional. They can provide personalized advice based on your individual health needs.
- **Discontinue Use if Allergic Reaction Occurs:** If you experience any signs of an allergic reaction, such as itching, swelling, or difficulty breathing, discontinue use of MacuPrime PLUS+® immediately and seek medical attention.
- **Consistency is Key:** For optimal results, it's important to take MacuPrime PLUS+® once daily as directed. Consistent use ensures that your eyes receive the necessary nutrients to support macular health and protect against oxidative stress.
- **Do Not Exceed Recommended Dosage:** Follow the recommended dosage instructions provided on the product packaging or as advised by your healthcare professional. Exceeding the recommended dosage may not result in additional benefits and could lead to adverse effects.
- **Keep Out of Reach of Children:** Store MacuPrime PLUS+® in a secure location, out of reach of children. Accidental ingestion by children should be avoided, as some ingredients may not be suitable for their age or size.
