FAO: Sue Grant

Order No: 6383  
Date Received: 08 JUN 18  
Date Tested: 05 JUL 18  
Date Reported: 02 AUG 18  
Report No: 90M33D

**- Certificate of Analysis -**

**Test:** Aerobic Total Viable Count

**Method:** TMMCS1-04

**Modifications:** Sample size tested was a 2 × 1 cm square of the material supplied.

**Sample:** **Eye Bag (Reusable warm eye compress)**, Black material and purple material taken from the outer part of the product.

**Comments:** From previous testing (reported in 90M33B) it was determined that background contamination of this test item had interfered with obtaining results. An assessment has been made here of the pre-existing contamination level of the product.

**Results:**

<b>Sample:</b> <b>Eye Bag (Reusable warm eye compress)</b>	<b>Colony Forming Units per 2 × 1cm square</b>		
	Bacteria	Moulds	Yeasts
Black material	2.6×10 <sup>2</sup>	1×10 <sup>1</sup>	<10
Purple material	1.0×10 <sup>2</sup>	<10	<10

**Conclusion:**

The results apply only to the samples tested.  
A similar level of contamination was seen on both the black and purple materials from the product.
