POLARIZED= Protecting Young Eyes

Your child's developing eyes are more transparent which allows more harmful light to reach the retina.

Polarized lenses block the reflected UV light in addition to the direct & scattered UV light.

It's time your kids have the same protection.

22 Piece assorted Polarized minishades display

Set Includes:

- 4x Baby Blue 0-3
- 5x Powder Pink 0-3
- 4x Electric Blue 3-7
- 4x Hot Pink 3-7
