Premium Eye Health Food Supplement

Life. Health. Wellness.

The macula is part of the retina at the back of the eye and is made up of a yellow macular pigment containing three light-absorbing compounds: Lutein, Zeaxanthin and Meso-Zeaxanthin. Our bodies cannot make these three compounds, so we have to get them from our diet or supplements.

Vitamin A contributes to normal iron metabolism, the maintenance of normal mucous membranes, skin and vision, as well as contributing to the normal function of the immune system.

Sea Buckthorn is a fruit grown in the heights of the Tibetan Plateau and survives through one of the harshest ecosystems in the world, where high altitudes and UV radiation stimulate the synthesis of the berries nutrients.

NUTRITION (per capsule)	AMOUNT	RI* %
Vitamin A	400µ RE	50
Zeaxanthin	2mg	†
Lutein	10mg	†
Meso-Zeaxanthin	10mg	†
Goji Berry Extract	25mg	†
