

THE EYE DOCTOR DRY EYE TREATMENT KIT BAGS

For patients who are suffering from moderate to severe dry eyes.

Contains:

- 1 x Eye Doctor Premium Hot Eye Compress
- 1 x Dry Eye Support Supplements
- 1 x Intensive Relief Eye Drops
- 1 x Optimel Eye Gel
- 2 x boxes of Biodegradable Tea Tree Oil Eyelid Wipes

Our Professional kit contains an expert recommended 5-step eyecare regime to provide 24-hour effective dry eye relief.

1. **HEAT** the eyelids with The Eye Doctor Premium antibacterial dry eye compress. Apply to eyelids to soften and reduce the viscosity of oil blocked in the Meibomian Glands (Meibomian Gland Dysfunction) to a natural, free-flowing, smooth consistency. In the overwhelming majority of cases, the underlying cause of Dry Eye Disease is Meibomian Gland Dysfunction.
2. **CLEANSE** the eyelids with The Eye Doctor Biodegradable Tea Tree wipes to remove contaminants and debris from the lids and lashes. Ideal to remove the old excess oil expressed from the glands in step 1. This will help reduce the build-up of possible infection and inflammation causing factors which may be responsible for Meibomian Gland Dysfunction and Ocular Surface Disease.
3. **REVIVE** eyes with our preservative free Intensive Relief Eye Drops. With 0.3% Sodium Hyaluronate, which in many cases is proven to provide instant relief for dryness, irritation and burning sensations caused by screen time, heating, air conditioning, contact lens discomfort and after surgery on the eye.
4. **SUPPORT** dry eyes with the Eye Doctor Premium Eye Health Supplement. Packed with essential Omega Fatty Acids, antioxidants and high-strength natural plant extracts, this unique blend of ingredients work together to support dry eye management, reduce inflammation and assist macular health. One-a-day, vegan, GMO free capsules and made in the UK.
5. **REPAIR** eyes with Optimel Manuka Eye Gel. Made with 98% pharmaceutical grade Manuka Honey, the active ingredient helps kill potential disease causing bacteria around the eyelids and stabilises the health of the surface of the eye by re-creating a normal natural microbiome on the ocular surface. Within this new natural homeostasis, the formula

helps heal the surface of the eye and prevents further damage. Ideal for use before sleep.

For patients who are suffering from mild to moderate dry eyes.

Contains:

- 1 x Eye Doctor Premium Hot Eye Compress
- 2 x boxes of Biodegradable Tea Tree Oil Eyelid Wipes
- 1 x Intensive Relief Eye Drops

Our Starter kit contains a 3-step eyecare regime to provide instant dry eye relief.

1. **HEAT** the eyelids with The Eye Doctor Premium antibacterial dry eye compress. Apply to eyelids to soften and reduce the viscosity of oil blocked in the Meibomian Glands (Meibomian Gland Dysfunction) to a natural, free-flowing, smooth consistency. In the overwhelming majority of cases, the underlying cause of Dry Eye Disease is Meibomian Gland Dysfunction.
2. **CLEANSE** the eyelids with The Eye Doctor Biodegradable Tea Tree wipes to remove contaminants and debris from the lids and lashes. Ideal to remove the old excess oil expressed from the glands in step 1. This will help reduce the build-up of possible infection and inflammation causing factors which may be responsible for Meibomian Gland Dysfunction and Ocular Surface Disease.
3. **REVIVE** eyes with our preservative free Intensive Relief Eye Drops. With 0.3% Sodium Hyaluronate, which in many cases is proven to provide instant relief for dryness, irritation and burning sensations caused by screen time, heating, air conditioning, contact lens discomfort and after surgery on the eye.
